

卫星管路多余物自动吹除控制台

Automatic Blow-off Control Console of Satellite Pipeline Contaminant

1. 产品名称：卫星管路多余物自动吹除控制台
Product Name: Automatic Blow-off Control Console of Satellite Pipeline Contaminant

卫星管路多余物自动吹除控制台
Automatic Blow-off Control Console of Satellite Pipeline Contaminant

2. 用途：用于自动化吹除卫星管路的多余物
Application: Automatically blow off contaminant of satellite pipeline

3. 主要功能和特点：

Functions and Specifications

- 采用PLC控制，触摸屏操作
PLC control, touch screen operation

- 可预设多点压力和控制时间
It can set multi-point pressure and control time
- 按参数自动输出压力方波
Automatically output pressure square wave follows data

4. 核心器件：PLC、减压阀
Main Instruments: PLC, Regulator

5. 运行时间与周期：可任意设置
Runtime and Period: Set by will

引信气密检漏系统

Fuze Leak Detection System

1. 产品名称：引信气密检漏系统
Product Name: Fuze Leak Detection System

引信气密检漏系统
Fuze Leak Detection System

2. 用途：对引信的气密性进行检测
Application: Leak Detection for fuze

3. 主要功能和特点：

Functions and Specifications:

- 使用安全，检测自动化
Use safe, automatic test

- 在检测范围内可以区分大、中、小泄漏
To distinguish large, medium or small leak in test scope
- 运行成本低，无公害
Low Cost, Non-Pollution
- 可根据要求制作双通道，四通道及多通道检测设备
According to requirement to make device with double channels, four channels or more

4. 核心器件：MI-172高精度多功能数字压力表，差压传感器
Main Instruments: MI-172 High Precision Digital Manometer, Differebcial Pressure Sensor

5. 测试节拍：2通道 5 ~ 8.0sec/个 4通道 3 ~ 6.5sec/个
Testing Rate: 2 channels 5 ~ 8.0sec/pcs, 4 channels 3 ~ 6.5sec/pcs
